

# China

## Range of children eligible to be adopted?

18 months (at referral) to 14 years old. The youngest children we see are typically around 18 months, Children are available to be adopted until their 14th birthday.

## Are sibling groups able to be adopted?

There are very rarely sibling sets available. If that is the case, they are usually twins.

## Are children with and without medical special needs (MSN) able to be adopted?

Our program is a medical special needs program. Children available have a wide range of special needs.
